IT Services

FGS IT Services

We understand that staffing for the IT positions that support our clients' business operations requires unique skill sets and experiences. Fortune Global Solutions serves top companies and provides a variety of staffing services for their IT positions. We recruit and deploy highly qualified architects, developers, analysts, DBA's, team leads, project managers and technical writers with the skill sets required to design, develop, implement and support their applications.

Continually Finding and Deploying the Best Talent

As a provider of IT contract and search services, we are keenly aware of the everchanging needs of our clients and the importance of building solid, lasting partnerships. Since FGS was founded, we've developed ongoing relationships with our clients and contacts in the field to quickly and confidently locate the talent needed.

Going Above and Beyond

A key to our success is the strategy we apply to identifying professionals with strong IT backgrounds. We also provide opportunities that continually build their skill sets. Our Recruiting Team then maintains long-term relationships with them to build our resource network. We continually improve our recruiting processes to qualify talented, hardworking, and resourceful technology professionals. And we're able to focus on the skills in highest demand by engaging in online profiling and Internetbased push technology to capture active and passive job seekers. The utilization of all of these recruiting efforts makes us a valuable IT staffing partner.
